**RULING ON ENTITLEMENT**<sup>1</sup>

On June 17, 2022, Patrick Simmons filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*<sup>2</sup> (the “Vaccine Act”). On February 13, 2023, Petitioner filed an amended petition. Petitioner alleges that he suffered a shoulder injury related to vaccine administration resulting from a tetanus diphtheria acellular pertussis (“Tdap”) vaccine received on September 29, 2021. Amended Petition at 1. Petitioner further alleges that the vaccine was received in the United States, he suffered sequela for more than six months, and neither Petitioner, nor any other party, has ever received compensation in the form of an award or settlement

for his vaccine-related injury. Amended Petition at ¶¶ 1, 7, 9; Ex. 1. The case was assigned to the Special Processing Unit of the Office of Special Masters.

On December 30, 2023, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent's Rule 4(c) Report at 1. Specifically, Respondent agrees that "petitioner's alleged injury is consistent with SIRVA as defined by the Vaccine Injury Table. Specifically, petitioner had no history of pain, inflammation, or dysfunction of his right shoulder prior to vaccination; pain occurred within 48 hours after receipt of an intramuscular vaccination; pain was limited to the shoulder in which the vaccine was administered; and no other condition or abnormality has been identified to explain petitioner's shoulder pain." *Id.* at 3. Respondent further agrees that the records demonstrate that Petitioner suffered the residual effects of his condition for more than six months and has satisfied all legal prerequisites for compensation under the Act. *Id.*

**In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.**

**IT IS SO ORDERED.**
